

## New York Fat Transfer Surgery Center Launches Updated Website

Written by Australian Business

---

( [PRLEAP.COM](http://PRLEAP.COM) ) New York, NY – The surgeons and staff at Advanced Cosmetic Surgery of New York, a premier plastic surgery practice in NYC and Long Island, are pleased to announce the release of their new website focusing on fat transfer surgery. Located at [fattransfernewyork.com](http://fattransfernewyork.com), the website will serve as a one-stop information source for men and women interested in fat grafting procedures.

As leading providers of fat transfer in New York City, Drs. Asare, Diktaban and Andan are pleased to have launched a website that is dedicated to this advanced procedure. As the procedure has grown in popularity in recent years, many individuals have questions about the risks, benefits and details of the procedure. The goal of the new website is to answer all of these questions and educate current and potential patients about their cosmetic treatment options. Individuals who visit the website will learn what fat transfer, or fat grafting, is and what procedures it can be used for, including breast augmentation, [butt lift](#), cheek augmentation and lip enhancement.

Individuals who visit the website can also learn more about the patient experience at Advanced Cosmetic Surgery of New York. The website features a before and after photo gallery of previous patients, testimonials and pricing information. It also offers biographical information on Dr. Asare, Dr. Diktaban and Dr. Andan, highlighting their treatment philosophies and experience.

Individuals can stay up to date on the latest cosmetic surgery news by reading the doctors' frequently updated blog. They can also conveniently schedule a consultation at the practice's Manhattan or Commack, NY, locations.

**More about Advanced Cosmetic Surgery of New York** Advanced Cosmetic Surgery of New York is an established cosmetic surgery practice with locations in New York City and Commack, Long Island. The practice is led by three board certified plastic surgeons who are committed to offering patients the very latest and safest treatments.
