

LOS ANGELES, March 5, 2014 /PRNewswire/ -- Different stages of life may bring various types of body image issues to light. In the Los Angeles area, mothers with sagging skin around the stomach might seek

[abdominoplasty in Beverly Hills](#)

. Children, in order to escape persistent bullying, might want corrective ear surgery, also known as

[otoplasty. Beverly Hills](#)

has seen its fair share of middle-aged men and women seeking a rejuvenating face lift as well looking to take a decade or two off of their face. Regardless, from ear pinning to

residents know they can depend on the expert hand and aesthetic eye of Payam Jarrah-Nejad, MD, FACS.

As a pioneer in the field of plastic surgery, double-board certified cosmetic surgeon Dr. J has made rapid healing and stunning outcomes part of his repertoire when performing breast augmentation, facelifts or his innovative Brazilian butt lift technique. Patients of varying ages, background and economic status choose Dr. J because of the fact that the surgeon has an impeccable reputation and a track record of success in performing body, breast and facial procedures.

His patients have enthusiastically volunteered to be featured in Dr. J's gallery of plastic surgery before and after results. The changes to their physique are often breathtakingly gorgeous, taking advantage of the patient's natural proportions. What can't be seen in these photos, however, is how grateful his patients are for the improvements in their self-esteem, which is apparent when reading the patient testimonials also featured on the website.

While Dr. J's practice is located on the glamorous Rodeo Drive of Beverly Hills, another aspect of his resume is his volunteer work for the less fortunate, especially those with physical deformities. Dr. J has been included on team trips to developing countries to correct problems such as polydactyly (extra fingers or toes), cleft palates, burn scars and various other problems here and abroad. While Dr. J caters to patients of any background, he gets great satisfaction to help patients with heartbreaking birth defects and other physical abnormalities that may put a damper on their quality of life.

No matter your reason for seeking cosmetic surgery, Dr. J can help you become the best possible version of yourself as your outer beauty will bolster your satisfaction with yourself. Dr. J
