

Valiant Recovery Tour of Luxury Rehab

(PRLEAP.COM) Kelowna, BC, Canada – Valiant Recovery offers luxury care to those who need help with substance recovery. There are programs of varying levels, but the drug treatment center started a special financing program for those who cannot afford to pay outright.

Whether you are in need of cocaine treatment or a dual diagnosis treatment center, Valiant Recovery can help. The center has [multiple levels of care ranging from Gold Standard](#) , to Executive, to Luxury. When you attend the program, prices may include amenities such as counseling sessions, access to a gym, prepared meals, and medications, as necessary. Root issues such as anxiety or depression are addressed, so once you finish treatment you can lead a sober life.

Since Valiant Recovery focuses on luxury care, the prices are not affordable to many people. The center, though, believes that all who want help should be able to receive it. Following this belief, the Christian drug rehab center developed a financing program. Previously, patients needed to pay \$18,000 or more a month for the Luxury program. This goes up to \$36,000 for the Executive. While these prices are still lower than other similar centers, Valiant Recovery offers financing starting at \$325 per month. Patients can now receive top quality care with an affordable price tag.

If you or a loved one show alcoholism signs or need help in recovery, contact Valiant Recovery as soon as possible. The center can help diagnose your problems and fit you into a treatment program within your budget to help you learn to live a sober life. Counselors are available at any time and descriptions of their programs can be found on their www.valiantrecovery.com/ .

About Valiant RecoveryValiant Recovery is a luxury treatment center offering a number of treatments such as addiction, intervention and mental health care. Each client is focused on as an individual so he receives care specific to his treatment. Rather than just treat the illness, Valiant Recovery finds the root cause to lessen the chance of using again.
