

[DQS GmbH Quality Management System ISO 9001:2008 Certified](#)

(PRLEAP.COM) May 8, 2014 - GxP-CC, a leading provider

for compliance consulting services for the life science industry, announced that it has achieved ISO 9001:2008 certification. Developed by the International Organization for Standardization, ISO 9001:2008 is recognized as the worldwide standard for [quality management systems and practices](#)

The scope of GxP-CC's ISO 9001:2008 certification and Quality Management System is the provision of consulting services, [training](#) and supply of specialized software for the pharmaceutical and medical device industries.

"We are proud to achieve this certification and share our constant quality management enhancement and experience knowledge with our customers day-by-day. Within our industry we choose to lead by example and our customers have the highest compliance regulatory needs - it's only logical for us to do this as well. Our business partners can rest assured that we will strive to provide them with a superior customer service together with quality solutions for their business purposes," said James Francum, Chief Executive Officer of GxP-CC.

"ISO 9001 belongs to the ISO 9000 family of standards which is related to quality management systems. It is the world's leading quality management standard and has been implemented by over one million organizations on a global basis. The certification will be beneficial to both our company and our customers. We will continue to put quality first in everything we do at GxP-CC in order to support our customers," added Dr. Henry Macartney, Chief Quality Officer of GxP-CC.

The GxP-CC management team continually strives to improve the company's quality system and reap the benefits for both company and customers. All employees are committed to ensuring continual improvement in the firm's quality management system and to maintaining and retaining the ISO 9001:2008 certification.
