

Woodland Hills Dentist Releases New Informative Website

Written by Australian Business

Woodland Hills, California June 03, 2014 [Health News](#) (PRLEAP.COM) June 3, 2014 - WOODLAND HILLS, CA - Dr. Kathy of Woodland Hills is reaching out to the Internet community through a new and exciting educational and interactive website that covers general, restorative and cosmetic dentistry practices.

Cosmetic dentist, [Kathy Daroee, DDS](#) of Kathy Cosmetic Dentistry has announced the launch of a new, information-based interactive website. The educational website contains pertinent information on general, restorative and cosmetic dentistry approaches and techniques. In addition to informative pages, visitors will find picture galleries depicting Before & After photos of Dr. Kathy's work.

The website contains educational videos to inform viewers about several dental procedures. These videos walk the viewer through each procedure, explaining preventive tips and what to expect throughout the actual treatment process and recovery period. Dr. Kathy's goal is for patients to become better informed and gain the ability to make wiser decisions concerning their dental health. Local consumers seeking pertinent dental information on Woodland Hills, CA dentistry now have the easy access to answers. Dr. Kathy explains, "Effective dentistry connects a dentist's practices to home dental care. Our whole website provides members of our community with answers to important oral care questions that help them achieve healthy teeth and gums."

Patients will also find links to external information through Dr. Kathy's dental website that are aimed at helping them make better informed decisions concerning dental providers and oral health care. These easily accessible links connect visitors to sites pertaining to oral health care and products.
