) June 14, 2014 - According to the clinical statistics in 2013, the users of a new TCM therapy-[fuyan pill](#)

has doubled when compared with that in 2012. Being able to cure hydrosalpinx naturally and thoroughly, fuyan pill has been accepted by an increasing number of hydrosalpinx patients.

"Fuyan pill, as a TCM therapy, has its own advantages in [treating hydrosalpinx](#) compared to western medicine treatment explains. Dr. Lee, the inventor of fuyan pill, "western medicine treatment, which used to be the first choice for many hydrosalpinx patients, does have certain effects and work instantly. However, it will bring harm to the liver and kidney (antibiotics) or result in scars, inflammation, tubes adhesion, and high recurrent rates (surgeries). Taking all these factors into account, more and more patients tend to accept TCM therapy, a safer treatment."

TCM can regulate the patients' internal environment, scrapes off the existed hydrops, and remove the lesions, treating both the symptoms and the root causes of the disease. And as it is consisted of herbal medicines, it is natural and has no side effects.

Being one of the most representative [traditional Chinese medicines](#) , fuyan pill shows its unique effect on hydrosalpinx treating.

"I have been diagnosed with hydrosalpinx in Feb, 2009," said Grace, a woman from New Zealand, "I underwent laparoscopy for twice but they just failed to keep my tubes open. They got blocked soon after the surgery. We were trying and trying, hoping that I could luckily get pregnant, but the God wasn't at our side. When I found Fuyan Pill, I had been suspicious for the treatment for a while when I was on the pills, because I saw someone claim it is a hoax on the internet. However, it was my last hope. So I just tried it. Fortunately, it hasn't let me down. Now finishing four full months' medication, everything is going well with me and my unborn baby."

Dr. Lee reveals, "Hydrosalpinx is mainly caused by infections. The internal environment of hydrosalpinx patient is always heated and damp, which provides convenience for

microorganisms like bacteria's multiplication. Besides, the blood stasis blocks blood circulation, adding difficulty to the discharge of metabolism products. These two factors are the rooting causes of [hydrosalpinx](#) . As the western medicine treatment only eliminates the existed hydros, it doesn't change the environment where hydrosalpinx forms. On the contrary, fuyan pill is different. Fuyan pill gives priority to clear heat and dampness, promote blood circulation, dissolve blood stasis, and eliminate toxins, and is complimented by the effects of nourishing spleen and invigorating qi. By taking fuyan pill, the patients will have a normal environment, and they will have their metabolism products discharge return to its normal."

She adds, "Some herbs are added in fuyan pill to help recover the normal function of female reproductive system and enhance the patients' immunity. By the integrated effects of more than 50 kinds of herbs, fuyan pill can act as a thorough [treatment for hydrosalpinx](#) ."

As fuyan pill has been patented by SIPO (State Intellectual Property Office of the P.R.C) with the application number 201110031968, it is trustworthy. So far, fuyan pill has healed many hydrosalpinx patients. More testimonies can be referred in the following link, <http://global.fuyanpills.com/Testimonials/>
