About Ben Harris Ben graduated from the University of Cambridge in 2002. He spent 7 years in private veterinary practice in London developing his interest and skills in internal medicine and attaining the RCVS Certificate in Small Animal Medicine in 2008.

Seeking to specialise further in internal medicine, Ben completed a residency in small animal medicine at Cambridge in 2012 before moving to Northwest Surgeons. He is working towards the ECVIM diploma. Ben's interests within the wider scope of medicine include critical care, uronephrology, and hepatology, infectious and immune-mediated disease. Ben has ongoing research into canine liver disease collaborating with six universities and a prospective study of canine herpesvirus.
