

[Stylish Steel Door Handles](#)

(PRLEAP.COM)

May 7, 2014 - In response to designers requests for a bolder statement in architectural hardware, we have designed this version of our Morhic pull with an impressive 32" height and an easy to grasp 2" diameter; the 316 stainless steel offers a rust resistant and durable finish. This pull can now be further customized with a powder coated accent in your choice of color. We are showing it in hot orange but we are able to work with designers to use a custom color or, for the hospitality market, perhaps a color associated with a client's specific brand to further enhance their corporate image.

This new piece, along with many of our customers favorites (and maybe a surprise or two) can be seen in our booth #4659 at the 2014 HD Expo in Las Vegas Nevada beginning May 14th and running through May 16th at the Mandalay Bay Hotel. We look forward to seeing you there and hearing your comments on this new and colorful powder coated door pull.
