Its mission: to acquire, preserve, organize, and give public access to information and materials in any medium, by and about LGBT people, primarily produced in or concerning Canada. To support this function, the Archives also maintain significant non-archival collections, which include a research library, international subject files, and an international collection of queer periodicals. It is the CLGA's mandate to make this information available to the public for education and research. Over the years, the CLGA has helped hundreds of people – students, artists, journalists, lawyers, filmmakers complete numerous projects inside and outside of the LGBT community.
