

MONROE, NC, September 12, 2013 **/24-7PressRelease/** -- Imagination Technologies/FRS, the leading provider of technology to the employment and background screening industries, is proud to announce that the company was named to the annual Inc. 500|5000 list for the fourth time. Imagination Technologies/FRS grew 83% over the past three years, and was ranked No. 3,630 on the 32nd annual Inc. 500|5000 list, an exclusive ranking of the nation's fastest-growing private companies. The company was ranked No. 97 on the list of Top 100 North Carolina Companies and in the Top 150 of U. S. Human Resource industry private businesses.

Imagination Technologies/FRS amazing growth has been fueled by the company's targeted attention to provide the highest quality solutions and services to the leading consumer reporting agencies (CRAs) in the employment screening industry who utilize its products because they require the most advanced technology in the rapidly changing background screening industry. In addition to providing the tools that make its client CRA's jobs much easier, the company has also increased its focus on marketing their screening services directly to HR managers to help bring business directly to its clients. To aid in bringing these HR leads directly to the FRS clients, earlier this year the company launched EmploymentScreeningRFPs.com to showcase their screening services.

"Our focus of helping our customers grow their businesses and compete in the employment screening industry as their strategic partner provides excellent opportunities for us to expand our business and gives us a sense of pride in the work that we do to help keep workplaces and our communities safe", said Phil Chapman, President of Imagination Technologies/FRS. "We have a very talented team who is very customer-driven and their efforts to go the extra mile have paid off for our clients as well as in the growth of our company."

About Imagination Technologies/FRS

Founded in 1993, Imagination Technologies/FRS is the leading provider of technology to the employment and background screening industry. The company provides an advanced suite of technology solutions and customized services directly to consumer reporting agencies (CRAs) to manage their screening operations including the capturing of requests from clients and their client's applicants by providing results through a large variety of electronic delivery mechanisms. Our team also specializes in providing custom solutions to its clients as required by their business opportunities to service their clients, as well as working to drive Human Resource (HR) leads to its CRA clients. The company is headquartered in Monroe, NC within the metro area of Charlotte.

At FRS, the ultimate goal for our technology solutions is to keep families safe - safe in our
