

NEW YORK, NY, September 12, 2013 **/24-7PressRelease/** -- EnviroFry announces the introduction of high-tech mold inspection and mold removal services for homes, apartments, offices, and commercial and government buildings in New York City, Buffalo, Rochester, Yonkers, Syracuse, Albany, New Rochelle, Mount Vernon, Schenectady, Utica, White Plains, Hempstead, Niagara Falls, Troy, Binghamton, and elsewhere in New York state.

Company personnel available for New York mold inspection and mold removal assignments include Phillip Fry and Divine Fry, company co-managers, who are both Certified Environmental Hygienists, Certified Mold Inspectors, Certified Mold Remediators, and environmental management consultants, plus Todd Strickland, Certified Mold Remediator, who also has extensive mold removal and construction experience nationwide.

Phillip Fry became the first full-time mold inspector in the USA, starting his nationwide mold inspection business in 1999, two years ahead of when most people become aware of the health dangers of exposure to toxic mold as the result of Dan Rather's "48 Hours" magazine program on CBS-TV in 2001 that reported in detail about the Stachybotrys mold infestation problem that ruined the health of a young family living in a newly-constructed, mold-infested home in Dripping Springs, Texas.

The EnviroFry team utilizes the latest and best high-tech methods and equipment to find, kill, and remove toxic mold growth that may be hidden inside walls, ceilings, floors, attics, basements, crawl spaces, and heating/cooling equipment and ducts. For example, EnviroFry kills mold with high output ozone gas and EPA-registered fungicides as part of comprehensive and complete mold remediation.

New York state residents and businesses can learn more about EnviroFry mold testing and mold remediation services by visiting the website <http://www.newyorktoxicmoldinspection.com>, plus the national websites <http://www.ozonegeneratorkillsmold.com>, <http://www.workplacemold.com>, and <http://www.moldexpertconsultants.com>.

Exposure to elevated levels of mold infestation at home or at work can cause over 100 major illnesses and diseases, according to Mr. Fry, who is author of Mold Health Guide and four other mold advice ebooks, all of which are available for purchase online at <http://www.moldmart.net>.

New York state mold victims can get free help and advice by emailing Phillip Fry [phil@moldinspector.com](mailto:phil@moldinspector.com), or by phoning Phillip Toll-Free 1-866-300-1616, or by visiting

<http://www.moldvictimrights.com>.

EnviroFry is staffed by Certified Environmental Hygienists, Certified Mold Inspectors, and Certified Mold Remediators who do complete and effective mold inspection, testing, and remediation in New York City, Buffalo, Rochester, Yonkers, Syracuse, Albany, New Rochelle, Mount Vernon, Schenectady, Utica, White Plains, Hempstead, Niagara Falls, Troy, Binghamton, and elsewhere in New York state. Company co-manager is author of five mold advice ebooks including Mold Health Guide, Mold Legal Guide, Mold Monsters, and Do It Best Yourself Mold Inspection, Testing, Remediation, and Prevention. EnviroFry also sells mold inspection and mold remediation equipment and supplies such as the Bio3Blaster ozone generator to kill mold, bacterial growth, and odors.
