is currently available for download for free on Google Play in the Games category.

The action takes place across a diverse variety of exotic exoplanetary settings ranging from desolate desert landscapes to lush jungle oases in Nova Defence. Players have a choice of three different types of upgradable Mortars and infantry Bunkers to use to defend from encroaching aliens, but they'll need to mix in brainpower with their brawn if they hope to succeed. All together players can mix and match from between thirty unique power abilities, and dozens of upgrades which together give them the power not only to set up custom defence grids on every level, but enhance them in real time during battle exactly as they'd like to as well.

[Nova Defence](#) is an expansive mobile gaming experience. A winding campaign provides players with over twenty hours of original gameplay and with a multitude of different game modes available to take advantage of, this game offers near endless replay value. With challenging level set ups, sophisticated graphics, fifty unique alien types to fight, and gameplay that's as responsive as it is fast paced, Nova Defence is primed to entertain both casual gaming fans and hardcore mobile gamers alike wherever and whenever they need to take a break or simply want to have a bit of fun.
