

Beverly Hills Cosmetic Dentist, Parsa Zadeh DDS, Now Offers Zoom Whitening

Written by Australian Business

BEVERLY HILLS, CA, September 13, 2013 /24-7PressRelease/ -- Dr. Parsa Zadeh, [Beverly Hills cosmetic dentist](#), now offers Zoom whitening to patients with stained or yellowed teeth. The Zoom whitening system is an in-office whitening system that is widely regarded as one of the most effective whitening methods on the market because it can whiten teeth by as much as five to six shades in one office visit.

The Zoom whitening system was developed by Philips, one of the leading developers of dental technologies. The Zoom system uses a potent peroxide gel to penetrate the tooth enamel and lift away years of stains and discolorations. The gel is activated by an LED light that was specially created by Philips for whitening the teeth. Dr. Zadeh, Beverly Hills [teeth whitening dentist](#), performs the whitening process in three short applications, totaling approximately 45 minutes of treatment time.

Many patients and dentists alike prefer the Zoom whitening method because it is faster and more effective than other in-office whitening methods. During the short office visit, up to ten years of stains from coffee, tea, smoking, or aging can be removed. In addition, the Zoom method uses special conditioners to minimize the sensitivity that other whitening methods can cause, making it an appropriate whitening method for patients with sensitive teeth.

About Dr. Zadeh, Expert in [Zoom Whitening Beverly Hills](#)

Dr. Zadeh, [Beverly Hills dentist](#), graduated from the College of Dental Surgery, Manipal, in 1984. After earning his Doctorate in Dental Surgery, he completed a one year general practice residency and several postgraduate courses on cosmetic dentistry, such as the Advanced Restorative Technique (Gnathology) course at Foundation for Advanced Continuing Education in San Francisco. Dr. Zadeh focuses on learning new and improved surgical and cosmetic dental techniques. Because of his dedication to continuing education, he was awarded Master status from the Academy of General Dentistry.

Contact Dr. Zadeh's office to schedule an appointment for Zoom whitening, or for another general or cosmetic dental procedure. Dr. Zadeh helps both new and returning patients improve the look of their smiles through whitening and various other cosmetic dental treatments.
