

NuBello, an All-Natural, Weight Loss Powder Launches an Indiegogo Crowdfunding Campaign to Expand

Written by Australian Business

NEWPORT BEACH, CA, September 14, 2013 **/24-7PressRelease/** -- Pacifique LLC, a holistic nutrition company, today announced NuBello is launching a crowdfunding campaign on Indiegogo to raise \$30,000 to expand its current flavor offering to benefit on-the-go individuals pressed for time and money, and help them get the nutrition they need to lead fuller, healthier and more productive lives. Please see our Indiegogo campaign at:<http://www.indiegogo.com/projects/nubello> for more information.

NuBello was developed by health experts and was formulated to meet most dietary needs; it's free of the most common allergens: dairy, soy, nuts and gluten. It has six times the daily-recommended fruits and vegetables in one serving; it's packed with nutrients and contains superfoods like kale and sea kelp, vital antioxidants, mood-enhancing B Vitamins, heart-healthy CoQ10, and Vitamin D3 for strong and healthy bones. NuBello is low in calories, is sweetened with stevia, a natural sugar used in South America for centuries, and is formulated to keep you feeling fuller longer, helping reduce bad food cravings; therefore making it an ideal weight loss companion. NuBello is the world's first vegetable protein powder with a holistic and long-term approach to health and wellness, while providing a pure and sustainable source of energy free of the artificial stimulants contained in other products on the market.

Crowdfunding Campaign on Indiegogo More information about contributing to the campaign can be found at <http://www.indiegogo.com/projects/nubello>.

A sampling of Perks for an individual who contributes range from \$25-275, which starts with a BPA-free NuBello blender bottle at the \$25 level, and goes all the way to a 100-day supply of NuBello, BPA-free blender bottle and a hat. Our goal is to raise \$30,000 in 60 days starting September 11, 2013.
