

FORT COLLINS, CO, September 15, 2013 **/24-7PressRelease/** -- Jorgensen Orthodontics is proud to announce that Dr. Don Jorgensen is now a Premier Provider of Invisalign! He is one of only four orthodontists in the Fort Collins and Windsor areas to achieve this distinction. Dr. Jorgensen is the only Premier Provider in Cheyenne, Wyoming.

"Dr. J" has been using Invisalign for over 12 years, creating beautiful smiles without metal wires or brackets in Fort Collins, Windsor, and Cheyenne, Wyoming.

Invisible Braces for Adults and Teens

Invisalign uses a series of customized, clear aligners to straighten teeth in a quicker amount of time and with fewer office visits than traditional braces. Thousands of orthodontists in the United States and Canada use Invisalign to treat mild orthodontic cases.

Invisalign aligners are virtually invisible to the naked eye. Friends, family members and co-workers may never even know you are wearing braces! They are comfortable to wear: the aligners are made from a special plastic that has smooth, rounded edges so they won't irritate your mouth and tissues like traditional braces often can.

Invisalign uses removable aligners so you can eat what you want during treatment. It is also much more convenient and sanitary than braces, because you can remove Invisalign to brush and floss your teeth.

How long does Invisalign take? Many cases can be treated in one year or less, however each individual case is different. To find out if Invisalign is right for you, Dr. Jorgensen is the orthodontist in Fort Collins to ask!

It All Starts With That First Appointment

Don't let another day pass you by. Call our office to schedule a consultation with Dr. Jorgensen and find out if you are a candidate for Invisalign. For more information, visit our website at <http://www.doctorj.com>
