

NORCROSS, GA, September 17, 2013 /**24-7PressRelease**/ -- There are many installation methods for hair extensions. They vary in application time, cost and how long they last. Sunny's Hair & Wigs, a leading online retailer of

[hair extensions](#)

, allows customers to choose their extensions by installation method. They also provide guidance on choosing color, length, and texture.

Clip-in Extensions

[Clip-in human hair extensions](#) are the easiest to use. Many people do it themselves, while others prefer to take them to their stylist to install. They are best for short-term use, like a big date or a special event. They can be installed and removed relatively quickly (in less than 15 minutes). Sunny's also sells [one-piece Lord & Cliff clip-in hair extensions](#), which are a fast and easy way to add volume to your hair.

Sew-in/Bonded Wefted Extensions

Sew-in extensions can completely transform the color and texture of your hair. They are installed by braiding your hair and sewing weft hair extensions onto the braids. Wefted hair can also be attached close to the scalp with a bonding agent. Most need to be applied by a professional stylist who has experience with them. They can both take up to a couple of hours to install. Sew-in extensions can last a month or two, while the bonded extensions last only until the first shampoo. These are good for women who like to change their look frequently, try out a new look, or need to wait out a haircut they aren't happy with.

Strand-by-Strand/Fusion

This method takes the longest to install, but it gives you natural-looking and moving hair for months that you can run your fingers through. Individual strands of human hair are attached directly to your hair wherever they are most needed with hot or cold fusion. Sunny's inventory includes gorgeous strand-by-strand [pre-tipped extensions](#) as well as many other options. This method is great if you know what look you want and want to keep it for a longer period of time.

Sunny's Hair Wigs Question Which Method of Hair Extensions Installation is Best for You

Written by Australian Business

Dafina Smith, CEO of Sunny's Hair & Wigs, says, "We know that the installation method is one of the most important considerations for many women who use hair extensions. That's why we let women view our selection of extensions by installation method if they choose. We even have a list of Sunny's Stylists--recommended stylists throughout the country. That way, if a customer is not near one of our salons, they can find a stylist closer to their home who is an expert in hair extension installation."
