

BOSTON, MA, September 18, 2013 **/24-7PressRelease/** -- Medical students preparing for the first step of the United States Medical Licensing Exam now have an extra study resource. CanadaQBank has launched a Windows mobile application that provides study questions and cases for medical students preparing for the first USMLE test. The app is compatible with iPhone, iPad, iPad Mini, and iPod Touch devices, along with all Android mobile phones and tablets and all Windows PCs, phones and tablets.

The app is free to download, but all practice questions and cases studies require a paid subscription, which can be purchased at <http://www.canadaqbank.com/register.php> . Once new users are registered, they can begin receiving study resources including practice tests that will help them prepare for the real USMLE step 1. The download process is fast and easy; however, students must make sure they select the correct app that is compatible with their particular mobile device. An app can be downloaded by going to the site <http://www.canadaqbank.com/applications.php>

.

CanadaQBank is a provider of online test preparation help for medical students who are taking a wide variety of licensing exams that will eventually allow them to practice medicine in the United States or Canada. The service offers practice questions and case studies that students can review to help them prepare for the various licensing exams, including the first step of the USMLE. Taking advantage of the mobile app allows students to study while riding the subway, waiting in line at the grocery store, taking a break at work or any other time in which the student can grab a few moments to answer questions or read over a case. The mobile apps make studying on the go easy and convenient.

CanadaQBank, an online study service for medical students in the U.S. and Canada, is celebrating 5 years in business. The internet company supplies the best in study resources for students going through the challenging process of becoming licensed physicians. A timeline of CanadaQBank developments can be found at <http://www.canadaqbank.com/milestones.php> .
