

San Luis Sausage Adds New Mango-based Chicken Sausages to Gourmet Line

Written by Australian Business

ORANGE, CA, September 19, 2013 **/24-7PressRelease/** -- San Luis Sausage introduces two new mango varieties of all-natural, preservative- and gluten-free chicken sausage to its gourmet line. Available through wholesale in October, Mango Jalapeño Chicken and Mango Chicken Breakfast Sausages are blended with the unique flavor of juicy mangoes and spices that will liven up any meal.

The Mango Jalapeño Chicken Sausage combines hand-mixed spices, cilantro and ginger puree with the sweetness of mango and the bite of jalapeño to create a diverse mix of sweet and spicy flavors. The Mango Chicken Breakfast Sausage is filled with whole cuts of premium chicken, mango puree and a hand-mixed blend of sage, nutmeg and cinnamon, creating a savory flavor to enhance any breakfast dish. The new flavors will appeal to the growing number of consumers with gluten intolerance and also to those looking for a healthy - and delicious - sausage choice.

"Mango is rich in vitamins A and C and blends deliciously with our chicken sausage," said San Luis Sausage founder Grace Knight. "For a more gourmet spin, we've added ginger and jalapeno to create a sausage ideal for lunch or dinner and added sage, cinnamon and nutmeg to a lighter version, which pairs perfectly at breakfast."

The Mango Chicken Jalapeño Sausage can be prepared in a number of ways and added to a variety of dishes, including: whole, accompanied with fresh vegetables, sliced to give kick to a kabob or out of the casings as a new twist on gourmet tacos or even chili. They pair well in any form with a light Mexican beer or margarita.

The hint of cinnamon and nutmeg in the Mango Chicken Breakfast Sausage could complement a plate of classic cinnamon French toast and Bellini, or as a healthy side to a classic egg scramble and Bloody Mary.
