

IRVING, TX, September 19, 2013 **/24-7PressRelease/** -- USA Office Supplies, one of the leading online office supply store recently conducted an awareness program and workshop on DIY Printer Problem Solutions along with the introduction to its best product range as well as discussed the usefulness of buying various everyday office supply products including the printing devices, [ink & toner](#) and other related accessories online, at their headquarter at Irving, Texas, amidst the presence of various media people, workshop participants and guests.

USA Office Supplies offers a wide range of [everyday office supplies](#) that include almost every kind of product starting from furniture, electronic items, maintenance supplies, stationery products, etc. and even has a dedicated section for [printing devices](#), and other [technology equipment](#) as well as recreation related item.

"There are several such printer issues like troubled cartridge change, ink spilling, paper insertion and text impression related issues that almost anyone can sort out if one knows how to handle these issues correctly. Most people try calling the repairing guy or the service engineer from the dedicated printer companies which wastes away a lot of time, energy and money. This DIY Printer Problem Solutions Workshop aims at helping people to handle all such minor issues on their own without spending a lot of bucks on hiring a repairing agent," informed Mr Daron Walton, the Founder and CEO of USA Office Supplies, who is also a die-hard printer issues enthusiast. He loves to help his customers, friends and acquaintances with viable printer issues solutions.

The main purpose of the workshop was to inform the customers about various printing devices and similar equipment available at USA Office Supplies site as well as to educate them to handle all kinds of minor usage issues that may occur with anyone anytime.

Participants present at the workshop not only got to discuss the various issues that they regularly come across but also got to sort out their problems on their own with a really generous help from Mr. Walton. "I never knew, handling printer would be so easy, I always had this weird little trouble of paper getting stuck and whenever I tried to fix it, I'd get blank papers even when the printing process was successfully completed. I just learned how to handle such issues that keep stemming up. It was great attending Mr. Walton's workshop," a participant said to the media.

The site offers a large variety of printers from popular brands and manufacturers with great discounts and rebates. It also has a dedicated section for printing accessories making it really easy for the shoppers to decide what they want to buy; besides, it has easier and hassle free shipping arrangements which makes printer and accessories shopping plan a breeze. A special free shipping arrangement is also available for the shoppers, which gives extra advantage on shopping at the site. "We offer free shipping arrangements when above \$60 orders are being placed," said Mr. Walton.

The workshop also had a special discussion session on the benefits of buying printing products online which introduced to all the various printing devices and printing related products that the site offers. "We offer branded printers and devices with multi-functioning capabilities like photo-copying, faxing, printing, etc at remarkable prices and you can always look to our site for high quality but most cost effective printer ink, toner and cartridges. And it is not that we only offer printers, we have almost every useful office supply product available on our site offered at most effective prices," informed the CEO of the site.

The event ended with a special productive and happy vibe as participants not only learned the benefits of buying supply products online but also learned how to handle their printers well and got an affirmative nod from Mr. Walton for bringing their issues to him. "I'd love to help you whether you've some issues bugging you or you want assistance in navigating our site while purchasing any product from us," he announced at the end of the event.
