

Apeirocoup LLC Releases ShopNDineCal for iPhone and iPod Touch

Written by Australian Business

CARMEL, IN, September 23, 2013 **/24-7PressRelease/** -- Apeirocoup LLC today announced that their first application, ShopNDineCal, is now available exclusively for iPhone and iPod touch. ShopNDineCal is a shopping and tip calculator with the capability of directly converting the prices of shopping items or dining expenditures to other currencies. So that while travelling abroad, a user knows exactly how much he is spending on a shopping item or a meal in his home country currency.

Features of ShopNDineCal include the following:

1. Calculates final prices of shopping items with sales tax, percentage discount and additional percentage discount. With option to convert final price to other currencies.
2. Calculates final dining bill with tips. With option to convert final bill and tip amount to other currencies. a. Able to split bill evenly among multiple diners. b. Option to tip before tax or after tax. c. Option to input dining tax in percentage value (%) or price value (\$). d. Option to round bill total to nearest \$1.
3. Touch any part of the screen outside input boxes to hide keypad.
4. No separate setting screens, so that impromptu changes can be made easily.
5. Ad free, no resources wasted on bandwidth, CPU and memory.

ShopNDineCal is now available for \$0.99 in the U.S. and is priced accordingly in other regions. ShopNDineCal could be purchased from Apple's App Store at <https://itunes.apple.com/us/app/id700513497>.
