

My Data Recovery Lab Announces Two New Locations

Written by Australian Business

LOS ANGELES, CA, September 23, 2013 /**24-7PressRelease**/ -- My Data Recovery Lab, a professional provider of [data recovery service](#), is proud to announce the opening of two new locations. Our new facilities in Los Angeles, California and Dallas, Texas, enable us to bring our customer first approach to these two vast and growing markets and allows us the opportunity to support the local business community by delivering convenience and quality to our customers with the fastest and most reliable service available anywhere.

My Data Recovery Labs provides technology-driven services that deliver comprehensive, cost-effective solutions for data recovery. During our decade plus involvement in the data recovery industry we have successfully rescued data from thousands of hard disk drives from virtually all available media sources. Our dedication to investment into research and development of new technologies, ensures our position as your trusted source for professional data recovery.

It would be our pleasure to provide you with a free detailed diagnostic report at any of our convenient [locations](#) .

Regardless of where you are, we guarantee you will receive the same quality service and affordable recovery solutions you have come to expect from us.

For more information, please do not hesitate to contact us. We look forward to hearing from you soon!
