

## David S Capo Announces Plan to Provide Expertise to Small Businesses

Written by Australian Business

---

TORONTO, ON, September 24, 2013 **/24-7PressRelease/** -- According to Industry Canada, there are approximately 1.1 million small businesses in the country. Of those, 58% of all businesses are located in Ontario and Quebec. Canada's employment rate remains stable and desirable and this residence, overall, has a positive outlook on the state of the economy. Many businesses have been able to retain their success as well as overcome struggles with the help of finance professionals such as David S Capo.

For over twenty years, [David S Capo](#) has lent his business expertise and savvy financial skills to large corporations in an effort to help businesses grow and prosper. Now, however, David S Capo is announcing his plans to work with a local Toronto finance firm to provide small and medium-sized businesses with the benefit of the same knowledgeable finance professionals that large corporations enjoy. Regarding his decision to move his career focus to small and medium-sized businesses, David S Capo had this to say: "I feel that the many years I spent working with larger organizations uniquely prepared me to help small businesses face the challenge of staying open."

With nearly 400,000 small businesses located in Ontario alone, professionals that can assist with financial planning, analysis, and sound investments are in high demand. Businesses face an overwhelming amount of fiscal responsibility and numerous government-imposed rules by which they must abide. In order to help businesses overcome many challenges they face, [David S Capo](#) and his team have put together a comprehensive service plans that include the industry's best level of customer service and a tailored support plan.

Reflecting upon how he came to this conclusion, David S Capo had this to say: "Through working with larger organizations I came to understand that small and medium-sized businesses are at a significant disadvantage because they don't have access to highly experienced professionals that can help business owners choose a wise course of financial action." It is with this problem firmly in mind that David S Capo chose to change his career focus to small businesses.

At his Toronto-based office, David S Capo routinely meets with business owners to discuss financial concerns and needs. With a strong background in various aspects of business, including marketing and mortgage, David S Capo is able to uniquely assist his clients with a variety of financial concerns. David S Capo starts his interviews with business owners by asking an open-ended question about the business. As a result of his years of expertise, [David S Capo](#) knows that he can learn much more from asking open-ended questions and allowing the business owner to fill in the blanks rather than asking specific questions. Also, this allows David S Capo to gain a broader idea of the business and its goals which he believes is just as valuable as the
