

OAK BROOK, IL, September 25, 2013 **/24-7PressRelease/** -- Access Media 3 ("AM3"), a telecom services provider to multi-dwelling unit properties, has received a \$6 million infusion of cash to fund internal systems and support infrastructure upgrades along with a previously disclosed asset purchase of a majority of the assets of MDU Communications (USA) Inc. ("MDUC"). The combined investment in AM3 by Meritage Funds, WP Global Partners, and Main Street Capital Corporation will sustain AM3's current business plan that delivers the fastest available Internet speed to customers, while continuing a dynamic growth trend. This aggressive trend landed it on the "Fast 50" list published by Crain's Chicago Business as number 5, along with being named to the Inc. 5000 list for the second straight year.

AM3, headquartered in Oak Brook, Illinois, provides high speed Internet, TV and voice services to MDU properties in 20 states. The new cash infusion will continue the expansion of AM3's high speed Internet capabilities, including delivery of 1 Gigabit bandwidth to properties and 100 Mbps speeds to residences within those properties in the Chicago, Dallas, Houston, Minneapolis and Southeast Florida areas, delivered via AM3's 10 Gigabit Ethernet networks. Additionally, AM3 will apply part of the funding to its acquisition of service subscribers from MDUC.

Scott Rediger, CEO of AM3, noted, "This funding opportunity enables us to continue our growth in our largest markets with service that will guarantee the best Internet experience for our customers. We are committed to delivering the fastest, most reliable Internet service in the industry to our clients, and our continued growth demonstrates the success of our business strategy."
