

FREMONT, CA, September 27, 2013 /**24-7PressRelease**/ -- GammaTech Computer Corp., a major international manufacturer and supplier of innovative notebook and tablet computers, will display its line of mobile rugged tablets and PCs at the 2013 SYNEX National Conference from October 2-5 in Greenville, S.C. As a vendor, GammaTech will interact with 350 SYNEX resellers and show its newest Durabook products.

GammaTech rugged notebooks and tablets are powerful mobile computing solutions that deliver the power and performance needed in the most demanding work environments. With customizable options, GammaTech meets the unique needs of several industries including public safety, utilities and healthcare.

Among others, the three newest GammaTech Durabook models on display at SYNEX National Conference will be:

- The SA14 rugged notebook features a 14" non-glare HD LCD display and Intel Core processor. The unit comes with a variety of wireless connectivity options and can function for up to 11 hours with an optional second battery. With an optional touch panel, the SA14 is the perfect notebook solution for use in a wide variety of rugged applications.
- The TA10 rugged tablet features a 10.4" multi-touch LCD display with ultra-high screen brightness for enhanced viewing, and an advanced Intel Core processor for outstanding performance. The TA10's two six-cell battery packs provide longer battery life and its mobility factor is enhanced with Bluetooth and Intel WiFi wireless connectivity, as well as an optional internal GPS function.
- The CA10 semi-rugged tablet PC features a 10.1" LCD display with resistive multi-touch screen, a hot swappable dual-battery design with up to eight hours of power, and a quick menu support for easy operability. The CA10 provides field workers with the information they need no matter where they are. Its wireless connectivity increases productivity and efficiency while keeping everyone in touch.

Availability The entire GammaTech product line is available through authorized resellers nationwide and at <http://www.gammatechusa.com>. Every GammaTech product may be customized to customer specifications.

GammaTech to Show Its Line of Rugged Computers and Tablets at SYNEX 2013 National Conference
