

ATLANTA, GA, September 27, 2013 /24-7PressRelease/ -- When you are outfitting your home with window treatments, it may seem like the options are limitless. Curtains, blinds and other flimsy window coverings are often popular choices, but they are not options that offer any kind of lasting durability. Eclipse Shutters recommends that homeowners instead consider the value of [faux plantation shutters](#) , which offer long-term value and beauty to your home.

Interior faux plantation shutters provide your home with a lasting quality that other window treatments cannot match. Their sturdy, custom fit construction ensures that they perfectly cover your windows and the thick louvers on each shutter are able to stand up to the wear and tear of everyday life.

In addition to being the more durable option, faux [indoor shutters for windows](#) are also the better looking choice for your window coverings. Popular since the era of Louis XIV, plantation shutters create a simple yet elegant profile that fits in perfectly with nearly any style of decor. No other style of window covering is able to transition as perfectly with the ever-evolving design of your home.

"So many window coverings available today are so flimsy and cheaply made," says Shannon Hodges, Director of Marketing at Eclipse Shutters. "Homes with kids and pets find that these kind of coverings don't last and need frequent replacement. Our customers have grown tired of the lesser alternatives and have decided to make a true investment in the beauty of their homes by purchasing our classic and more durable [plantation shutters](#) ."
