

ATLANTA, GA, September 27, 2013 /24-7PressRelease/ -- J. Martinez & Company Fine Coffees is pleased to announce that its [gourmet specialty coffees](#) are featured at the Zagat-rated Atlanta restaurant, Canoe.

Canoe was named as one of Atlanta's Top 20 restaurants in the 2012-2013 Zagat Food Ratings Survey. This widely acclaimed restaurant features a seasonal menu which highlights individual ingredients through its celebrated chef's unique vision. It is this devotion to quality ingredients that led Canoe to offer a special blend from J. Martinez & Company on its menu.

Coffees from J. Martinez & Company originate on single estates throughout the world. By working directly with individual estates, J. Martinez & Company is able to source the finest coffee beans available, including Jamaican Blue Mountain and [Kona coffees](#).

To ensure that its coffees are the freshest, J. Martinez & Company only roasts its beans after they have been ordered. After roasting, the gourmet coffee beans are immediately shipped, ready to be ground and enjoyed.

This process of roasting to order ensures that the subtle flavors of fine coffees like [Jamaica Blue Mountain coffee](#) are not lost to time and their own volatility, as they are with traditionally roast-before-order beans. The exquisite flavor profiles of each J. Martinez & Company estate coffee have made the company a celebrated source of fine coffees for individual consumers and restaurants like Canoe.

"It is always an honor for a celebrated chef to choose our coffees over others," says John Martinez, owner of J. Martinez & Company. "Chefs like Chef Carvel Grant Gould of Canoe have extremely refined palates, and their choice to serve our coffee speaks volumes for the quality we always try to preserve in our beans."
