

Torrance Dentist, Dr. Kashfian, is Offering 15 Percent Discount on 4 or More Implants

Written by Australian Business

TORRANCE, CA, September 27, 2013 /24-7PressRelease/ -- [Torrance dentist](#), Dr. Kashfian, is now offering a 15 percent discount on four or more dental implants. Implants restore the function and appearance of teeth and help protect the integrity of the jawbone structure. They are made of a biocompatible titanium screw, which is implanted directly into the jawbone to serve as a foundation for a restoration. Implants can be used to support a single missing tooth or many missing teeth, and they can support dental crowns, dental bridges and dentures.

Dr. Kashfian, [Torrance dental implants](#) dentist, offers extensive treatment options at his Torrance office. Crowns and bridges, dentures, Teeth in One Day and dental implants can all be used to restore missing teeth. [Porcelain veneers](#) and teeth whitening can enhance the appearance of a smile while treatments for TM dysfunction, dental reconstruction, rehabilitation for traumatic injuries and oral cancer reconstruction can be used to improve the health and function of a smile.

Implants are considered the standard in tooth replacement. Many patients prefer implants as well. The implants are comfortable and feel quite similar to natural teeth. They are even easy to clean and require only regular brushing and flossing along with routine dental checkups. The success rate for the procedure is extremely high. About 95 percent of implants placed in the last several decades continue to provide service to the patients who have received them.

The 15 percent discount on four or more implants offered by Torrance dentist, Dr. Kashfian, offers significant savings that can help patients stabilize or even improve their dental health. The implants stimulate the tissue in the jawbone, which can slow down or halt the bone loss that tends to occur after the loss of one or more teeth. With dental implants, patients can continue to eat healthy diets and smile with confidence.

About Dr. Kashfian, [Dentist Torrance](#)

Dr. Kashfian is a skilled Torrance dentist with extensive experience in reconstructive, restorative and cosmetic dentistry. He completed three years training in prosthodontics along with other advanced continued education programs in his fields.
