

SILVER SPRING, MD, September 28, 2013 **/24-7PressRelease/** -- Since 1995, Dr. Gregory Hysong has offered advanced dentistry services in partnership with Dr. Lynda LePore at his Colesville Dentistry office. Over the course of these 18 years, Dr. Hysong and Dr. LePore have cared for thousands of patients, helping them maintain healthy and beautiful smiles.

While Dr. Hysong and Dr. LePore bring a wealth of experience in the Cloverly community and beyond, there are several new aspects of their practice. This is especially true for the Colesville Dentistry facility. The office is more than 2,000 square feet with state-of-the-art dental equipment. From free wireless Internet in the waiting room to digital X-ray technology to Intraoral photography, Dr. Hysong and Dr. LePore are dentists in Cloverly with high-tech capabilities.

"I have invested continuing education time to ensure that our patients receive best dental options possible," says Dr. Hysong, a Cloverly dentist. "I want my patients to know my staff and I will do everything we can to help them feel great about their dental health."

At Colesville Dentistry, Dr. Hysong and Dr. LePore's patients come in typically twice a year for regular cleanings and an oral examination. Dr. Hysong and Dr. LePore will also perform oral cancer and/or blood pressure screenings with every patient's visit at Colesville Dentistry.

Should Dr. Hysong or Dr. LePore detect decay or more serious dental infections, such as a dental abscess, they may recommend a variety of treatments. These include sealants, fillings, root canals and extractions. Dr. Hysong and Dr. LePore also offer cosmetic fillings at their office. These fillings are made of composite material, which more closely resembles the tooth. This means patients no longer have to feel self-conscious to show off a smile that has metal fillings.

In addition to keeping patients teeth healthy, Dr. Hysong and Dr. LePore offer services that make a smile appear more beautiful. Dr. Hysong and Dr. LePore are Silver Spring dentists who offer cosmetic dentistry services. This includes teeth whitening to remove aging, medication or dietary-related teeth staining. Patients who desire greater changes to their smile may opt for veneers, which are thin, porcelain shells that can be bonded over the front teeth to correct cracked, chipped, gapped or stained teeth.

Dr. Gregory Hysong and Dr. Lynda LePore also can provide several options for patients with lost or missing teeth. These services offered by Dr. Hysong and Dr. LePore, best dentists in

Silver Spring, include bridges, dental implants or denture creation.

"I encourage prospective patients to call and schedule a consultation where they can share their dental concerns, and I can work with them to identify services that will be beneficial," explains Dr. Hysong, a Silver Spring best dentist. "All of this can be accomplished with an eye toward keeping costs low and patient benefits high."
