

ELKRIDGE, MD, September 28, 2013 **/24-7PressRelease/** -- Dr. Emilio Rivera, Elkridge, MD dentist, invites patients to join Integrative Dental Partners' social networking sites for increased interaction and communication. The Facebook and Twitter pages were created to allow patients to easily access more valuable information about the practice, in addition to communicating with other patients about their previous procedures and visits to Integrative Dental Partners.

With the recent addition of the new Facebook and Twitter pages, patients have the ability to gain important information regarding services, staff members, updates on the practice and even common advice for different dental health issues brought to view by one of the Elkridge dentists at Integrative Dental Partners.

"The launch of Facebook and Twitter has allowed our practice to take a giant step toward better patient communication. We are now able to interact more closely with our patients outside of the office than ever before," said Dr. Emilio Rivera of Integrative Dental Partners offering cosmetic and family dentistry in Elkridge.

The dentists at Integrative Dental Partners want patients to be as informed as possible about the practice. Dental related health issue information, as well as treatment options, is all readily available on the practice's informative website. Available 24/7, patients can access an array of the most common dental topics, including dental implants in Elkridge, which are included in the new blog available via the practice's website. The more patients know, the more comfortable they will be at their appointments at Integrative Dental Partners.

Patients looking for dentists who are experienced in general, family and cosmetic dentistry in Elkridge turn to Integrative Dental Partners for quality care they can trust. With the launch of the practice's new Facebook and Twitter pages, gaining valuable dental information and making educated health decisions is easier than ever. Integrative Dental Partners welcomes all patients to their practice and invite them to join the practice's new social networks.

For more information on Integrative Dental Partners, or to find direct links to the practice's social network, patients can visit the practice's website at <http://www.integrative-dental.com> .
