

## Dental Implants Available At Respected Specialty Practice In Baltimore

Written by Australian Business

---

BALTIMORE, MD, September 29, 2013 /**24-7PressRelease**/ -- Dental implants are tiny synthetic pins that closely resemble the common screw. They are surgically inserted into the space normally occupied by the root. The implants are attached to a metal framework on the jaw bone or directly to the jaw. The procedure can cause anxiety, even for the most enthusiastic recipient. Implants do not have to be scary, however. Dental implants can be a breeze if performed by the right dental office. Dr. K. Michael Murphy and Associates is that practice.

"Unlike a general dentistry office, we specialize in cosmetic dentistry and implants," said Dr. Murphy, Baltimore dentist. "We also specialize in sedation dentistry which allows the most nervous patients to relax during procedures."

Along with offering patients highly trained doctors, the practice offers quality work. Dr. Murphy is considered one of the best dentists in Baltimore. His practice has earned "Best Dentists" and "Best Prosthodontist" titles by Baltimore Magazine and City Paper.

"Often times, a patient who needs implants also needs other procedures to complete the restoration process. We are prepared to perform related restoration efficiently so the patient leaves our office with a bright smile in fewer visits," said Dr. Murphy.

Veneers, whitening, prosthodontics, Invisalign, Clear Correct and cosmetic contouring are only a few of the services Dr. Murphy offers. Despite specializing in cosmetic dentistry, Dr. K. Murphy and Associates is also a comprehensive dental office, offering cleanings, fillings, root canals and more.

For more information about getting flawless dental implants in Baltimore, patients can visit the Dr. K. Murphy and Associates website at <http://www.baltimoreuptowndentist.com/> or contact the office at 410-235-1233.
