

The Winner of the 2013 Miyagi TV Cup Dunlop Ladies Golf Tournament Used IOMIC Grips

Written by Australian Business

SANTA ANA, CA, October 02, 2013 **/24-7PressRelease/** -- IOMIC USA, manufacturer of innovative, revolutionary and dynamically designed grips, announced today that IOMIC grips were used by the winner of the Japan LPGA 2013 Miyagi TV Cup Dunlop Ladies Golf Tournament. In addition to the winner, a T4 and two T7 finishers also used IOMIC grips.

"We congratulate the winner on her first JLPGA victory," said Katz Murai, General Manager, IOMIC USA. "She played well and held her own against veteran competitors to win this event. We are pleased that she has increased the IOMIC worldwide tour win count to 42 in 2013!"

The winner was a co-leader after the second round and finished at 5-under to claim her first Japan LPGA victory. She is using Sticky 1.8, Yellow/Mint Green grips. Her win puts her at #13 on the 2013 JLPGA money list. The top 50 on the list will keep their tour cards for 2014.

IOMIC Sticky grips are incredibly soft, and feature great traction and low torque. These versatile grips are suitable for all playing styles, from beginners to top ranked tour professionals. The Sticky 2.3 is the standard size grip in the Sticky series while the Sticky 1.8 is slightly smaller.

All IOMIC grips feature the revolutionary "IOMAX" technology, a proprietary compound that provides a soft feel with control. This material provides adhesiveness, is water and friction resistant and is naturally white in color which allows for a full spectrum of color - IOMIC's signature trait.

About IOMIC USA:

IOMIC USA manufactures premium, ergonomically designed golf grips that focus on technology. The company uses a revolutionary material called "IOMAX", which enhances grip feel, reduces torque and allows for a variety of color choices. The ergonomic design of IOMIC grips, combined with a super soft touch and feel, ensure maximum feedback and control for golfers. The launch of the Color Grip Series helped the company gain attention in the industry
