

MIAMI, FL, October 02, 2013 **/24-7PressRelease/** -- At the start of the 2013 Fort Lauderdale International Boat and Mega Yacht brokerage show, Belzona Marine will be unveiling their second boat model, the Belzona Marine 327 Walk Around; a thirty-two foot, fish-around compliment to their initial 325 Center Console model.

"The debut of Belzona's new 327 Walk Around boat model will come exactly one year after our first model launched at last year's show," states Karl Boehler, Senior Designer at Belzona Marine. "We are committed to the growth of the business, and the progression of our product lines. Continuing to design, and build new, innovative boat models is our commitment to the marine industry. Successfully designing two groundbreaking boat models, in just under two years is quite an accomplishment, and the people at Belzona Marine are very proud to be a part of this movement."

The new 327 Walk Around has been designed from the ground up, using Belzona Marine's patented Easy Open Sliding Doors, their Quick drain Technology in the boat's cockpit, the unibody center console, and the sleek, yet functional amenities that have come to define the Belzona Marine brand. The new boat's cabin comes with a dry head, a separate full size Corian accented shower, an integrated sink and vanity, as well as a seven foot berth large enough for any boating enthusiast. The Day Boater or Weekender will find the summer kitchen's sink, grill and counter top, along with the cabin's built-in microwave a perfect place to cook the day's catch. The true Angler will be impressed with the 327's ability to be configured into a versatile fishing vessel. The 327 remains true to its roots, and remains identical to the 325 Center Console aft of the helm. It boasts an impressive six foot two inch cockpit, ample tackle storage, and two sixty inch fish boxes. The tournament version also includes a single sixty gallon live well, optional secondary and tertiary thirty gallon bait wells, up to 20 rod holders distributed throughout the transom, gunnels, hardtop, and helm, as well as outriggers.

To say that the Belzona Marine 327 Walk Around is an engineering achievement is an understatement. It provides customers with the best of both worlds. If you plan to attend this year's Fort Lauderdale International Boat Show, make Belzona Marine's booth, number 2017 inside the convention center, your first stop. Belzona Marine's new 327 Walk Around will not let you down.

Belzona Marine is a Miami based manufacturer of high performance, luxury watercrafts. With over 60 years as a leading manufacturer of industrial protective coatings and repair composites for the marine industry, Belzona expanded into the boat building industry two years ago. The owners of Belzona plan on providing customers with yet another company that will exceed industry standards, and will be a lasting success. Belzona Marine is based on the same principles which have allowed Belzona to thrive since 1952. Hard work, dedication, revolutionary technologies, quality products, investments into research and development, and
