

CARROLLTON, TX, October 02, 2013 **/24-7PressRelease/** -- Dallas-based mergers and acquisitions firm International Acquisition Group has been brokering great business deals for 25 years, but during that time it has never lost the drive to achieve more. Recently, International Acquisition Group's devotion to client satisfaction and its one of a kind positioning in the market enabled the brokering of one of the most successful deals the company has made to date. When Rainbow Press and Safeguard Business Systems inked the final details of the contract, barely six months had passed since the printing company had approached International Acquisition Group for their help in finding a buyer. Even by International Acquisition Group's high standards for excellence, that is an outstanding feat.

It was a situation in which all the cards fell in the right way, with Rainbow Press being a respected printing company with a solid market share in Omaha, NE. Safeguard, a longtime client of [International Acquisition Group](#)'s, had been hunting for an entry into the Omaha market for some time, looking to expand their offerings of printing and office solutions. When Rainbow approached International Acquisition Group, says president Jason Hullender, he knew almost instantly that they would be able to make the right deal.

"Rainbow's combination of market location, brand recognition and financial statements was just about a 100% perfect fit for what we knew Safeguard had been seeking," says International Acquisition Group's Hullender. "We went to Safeguard with the offer, and things just proceeded smoothly all the way through. This type of deal, you don't see it every day. It's not too often that the pieces interlock so seamlessly, but it sure is a good feeling when they do."

This deal is the latest in a string of winners for International Acquisition Group, which has been consistently leveraging its network of buyers across the nation into great deals for both buyers and sellers. [International Acquisition Group](#) specializes in small to medium sized business deals, offering a comprehensive package of services from valuation and consultation to financial assistance packages for buyers and sellers. International Acquisition Group's unique position in the market stems from their approach to marketing, using a variety of media both in print and online to reach upwards of 200 million pairs of eyes, resulting in a worldwide client base and the ability to match clients from faraway markets where sellers would be unable to make a match on their own. This strategy has paid off in spades for International Acquisition Group, a company that has seen 25 years of steady growth and sustained success that most companies only dream of.

Rainbow Press is on record as being one hundred percent satisfied with the experience they had working with [International Acquisition Group](#). Having had difficulty finding a buyer in their own region after a prolonged search, Rainbow decided to turn to the broker and the results speak for themselves. Rainbow's spokesman says that he would recommend International Acquisition Group to any business owner looking for the best possible terms for the sale of their
