

Extreme Couponing Expert Helps People Learn to Coupon and Save Thousands of Dollars

Written by Australian Business

CLEVELAND, OH, October 02, 2013 **/24-7PressRelease/** -- Want to learn to coupon and save over 50% on groceries each year but don't think it's worth the hassle? Think again. Pamela Davis, a successful contestant from TLC's Season 4 television show, "Extreme Couponing," is now sharing her coupon secrets and providing training via her new business, Quick Couponing at <http://www.quickcouponing.com>.

"Couponing can help you save thousands of dollars each year on your grocery bills, and it doesn't have to be a hassle," states Davis. "When you learn to coupon, it's a matter of obtaining the coupons you need and setting up a simple process each month. Once you see all of the extra cash you have from your efforts, you'll wonder why you didn't start this sooner!"

Coupon Savings Turns Into a Business

As a busy wife and mother of four with seven jobs (yes, seven!), Pamela Davis was destined to start couponing. After saving thousands of dollars each year on diapers, wipes, formula, and food to feed her growing family, she ended up on Season 4 of TLC's "Extreme Couponing." Then, she realized her destiny to launch Quick Couponing and help other families do the same thing.

Learn to Coupon with Quick Couponing

Quick Couponing provides online training to help anyone:

- Access an online community of fellow couponers, current couponing tips, expert advice, newsletters, and more!

"Couponing is no longer just a hobby for stay-at-home Moms and has become a lifestyle for many Americans creating accessibility to affordable, fresh produce and groceries," states Davis.

"Couponing has helped many, less fortunate families save hundreds of dollars on groceries and allow them to take this money and use it for other, household expenses like providing a roof over their family's heads during a stressed housing-market. In addition, couponers have donated hundreds of thousands to missions and charities worldwide dedicated to ending hunger in their communities and in neighboring countries who have been the victims of horrifying natural-disasters. Couponers have also sent thousands of care packages and expired coupons (that have an extended, six-month life span) to support our troops and their families while they are away fighting for our freedom."

"I discovered Quick Couponing and finally learned all the tricks and secrets to saving money without spending a crazy amount of hours a week dedicated to coupons," states couponer Rita Serrano. "Now I save at least 50% on all my shopping trips."
