

BIOMET 3i Announces Adjustments to its Executive Committee

Written by Australian Business

PALM BEACH GARDEN, FL, October 02, 2013 **/24-7PressRelease/** -- BIOMET 3i, one of the world's leading dental implant manufacturers, announced today that it made adjustments to its Executive Committee led by President Bart Doedens.

Effective October 7th, Mr. David Josza is returning to the organization as the Vice President of North American Sales. Mr. Josza has extensive dental experience having worked for more than 10 years in the industry, and is familiar with many dental implant professionals. His return to BIOMET 3i marks a strengthening of focus on the North American marketplace.

Mr. Lars Janson is assuming the role of Vice President of Global Marketing and Education. Throughout his long tenure at BIOMET 3i, Mr. Janson has been instrumental in many aspects of the company including EMEA & APAC commercial operations and leading the BIOMET 3i Institute for Implant and Reconstructive Dentistry.

"These adjustments to my Executive Committee are the key to a successful future," says Doedens. "The breadth of expertise each of these individuals brings to the organization is essential to our continued innovation and growth."

According to Doedens, these adjustments will enable the company to continue to focus on the success of its 3i T3 Implant, which is a contemporary hybrid implant with a new multi-surface topography designed to deliver aesthetic results through tissue preservation.

BIOMET 3i is also focused on the successfully performing BellaTek Encode Impression System, which eliminates impression copings and includes a healing abutment with embedded codes on the occlusal surface that provide the necessary information to design and mill the definitive abutment.

BIOMET 3i LLC is a leading manufacturer of dental implants, abutments and related products. Since its inception in 1987, BIOMET 3i has been on the forefront in developing, manufacturing and distributing oral reconstructive products, including dental implant components and bone and tissue regenerative materials. The company also provides educational programs and seminars for dental professionals around the world. BIOMET 3i is based in Palm Beach Gardens, Florida, with operations throughout North America, Latin America, Europe and Asia-Pacific.
