

Miratech Opens Its Doors for Norwegian Students

Written by Australian Business

KIEV, UKRAINE, October 03, 2013 /**24-7PressRelease**/ -- The event was held for the third year in a row under the affiliate exchange program between the University of Nordland (Norway) and Taras Shevchenko National University of Kyiv. It includes representatives of Ukraine's government, diplomats of both countries, masters, academics, and graduate students. At the conference, students took part in panel discussions, discussing the experience of cooperation in higher education between the two countries. At Miratech's delivery headquarters, Eduard Savushkin, Vice President of Business Solutions, spoke about Ukrainian IT industry and its export potential. This presentation was targeted to Norwegian students who are getting master's degrees with an in-depth curriculum of management, finance, and marketing, as well as information technology usage.

Alexey Perekatov, Vice President, Corporate Marketing, says, "We are pleased to open the company's doors for Norwegian students. It's a great chance for them to see a Ukrainian outsourcing company with a 24-year history and international experience. Norway and Miratech are connected by business projects and partnerships, which Miratech plans to expand in the near future."

Volodymyr Zaslavsky, Head of the Department for International Scientific and Technical Cooperation and Innovation Technology at Taras Shevchenko National University of Kyiv, said, "The two-year student exchange program between Ukraine and Norway has existed since 2010. Made possible by a grant from Norway's government, it is aimed primarily at the exchange of experience and discussions of the latest education trends. It was a great opportunity for the future masters to get acquainted with Miratech, which is actively developing its business relations with Norway."
