

Tha Afterparty Radio Station Launches New Mobile App for Iphone Android Devices

Written by Australian Business

DALLAS, TX, October 03, 2013 **/24-7PressRelease/** -- Tha Afterparty Radio Station through a partnership with RockandRollApps.com have created a custom mobile platform for show host to engage with international listeners. The mobile application is the first of many new innovative concepts provided by the radio station to reach the masses.

Station Owner and Program Director, Montanna Mitchem dedicated many hours customizing and editing the mobile app to meet the needs of all 18+ radio shows and listeners nationwide. The mobile application provides pre-recorded and live shows daily with the ability to dynamically reach listeners without having to update their tracks or playlists. The mobile application is available on Iphone and Android devices through Tune In App and always available on ThaAfterparty.com.

Tha Afterparty Radio Station is a multicultural online radio station featuring and promoting diverse cultures and universal topics and issues (fashion, beauty, lifestyle, music, career, health, relationships & politics, community). Tha Afterparty Radio Station's mission is to provide a trusted source of community awareness, music and entertainment for listeners worldwide. Tha Afterparty Radio Station's vision is to be a valued, vital and vibrant part of the online community that is indispensable to listeners' lives, inspires people to look at the world in different ways and capitalizes on emerging opportunities to serve our listeners/communities.
