

Foamiture Furniture Appearing on New NBC TV Show

Written by Australian Business

INDIANAPOLIS, IN, October 03, 2013 **/24-7PressRelease/** -- NBC's new comedy on Thursday nights, "Welcome to the Family", will be using Foamiture furniture on set when two different families are thrown together by circumstances. Lightweight and contemporary, Foamiture furniture was a great fit for the staging of the show. The series premiere is Thursday, October 3 at 8:30/7:30c. Watch for Foamiture furniture after the first episode!

Foamiture offers various furniture options including sectionals, sofas, chairs, ottomans, bean bag style furniture, and kid's furniture - all in assorted colors and fabric. The Foamiture.com Website provides customer reviews and ratings, free sample and swatch requests, and simple and secure checkout.

Company representatives explain Foamiture is simply well designed, well made 100% foam furniture. Unlike other furniture, there are no wood supports or metal frames in any Foamiture furniture product. The body of Foamiture is made entirely of advanced Reflex Plus Natural foam that has been manufactured for comfort, support, and durability.

Together with its parent company, Veada Industries, Foamiture has been manufacturing high-quality furniture for over 40 years. Foamiture engineers are experts in the field of seating and have worked closely with foam suppliers to develop the materials used in Foamiture. This foam is engineered with exactly the right density to be sturdy but comfortable. The result is affordable, attractive, easy-to-move furniture equally at home in a small space, lounge area, or recreation room. It is ideally suited for use in dorm rooms, apartments, basements, recreation rooms, and institutional settings. Foamiture is quality furniture - not cheap furniture that you'll soon have to throw away. Foamiture.com
