

Dave Stanton Medical Expense Sales Drive

Written by Australian Business

SACRAMENTO, CA, October 04, 2013 **/24-7PressRelease/** -- Racer Dave Stanton suffered a severe spinal injury during an American Federation of Motorcyclists AFM race on June 2, 2013. Dave has astronomical medical bills, and needs your help and support. Please consider making a donation towards his growing medical and rehabilitation expenses, loss of income, and other expenses.

Glenn Stasky, Clearwater's President, met Dave during September's AMA/WSBK race weekend at Laguna Seca. He was so moved by his progress and positive attitude that he felt he had to help somehow. "Clearwater Lights was started in an effort to make motorcyclists safer by providing additional light. How better can we help a fellow motorcyclist than to contribute to his recovery," said Stasky.

"Having firsthand knowledge of the pain, fear and immense costs a major motorcycle accident brings made me want to help," Stasky says. "I had heard wonderful stories about Dave and when I got to meet him, I immediately saw why he has so many loyal friends. Dave Stanton represents the good in motorcycling. Even in his current condition, he exhibits tremendous positive energy. His camaraderie, competitiveness and willingness to aid fellow racers is what makes him so special. He needs our help."

During the entire month of October, Clearwater Lights will contribute 10% of their sales to the Dave Stanton fund. Even if you don't buy their safety lights, please consider making a small donation to Dave directly at <http://www.stanton53support.com>. And, go to <http://www.Clearwaterlights.com> or call them directly at 916-852-7029 to see how your light purchase can help Dave.
