

EL MONTE, CA, October 04, 2013 **/24-7PressRelease/** -- [El Monte dentist](#) , Dr. Bijan Afar, has launched a new website. Dr. Bijan Afar and Dr. Asal Sedghi are working closely together to offer patients comprehensive treatment options in a state-of-the-art office that is designed for patient safety and comfort.

Advanced imaging techniques and other records can be used to identify the early signs of dental pathologies. Routine care and general dental care are offered to help patients achieve improved dental health and maintain strong smiles that are free of disease or infection. Dr. Sedghi also offers cosmetic treatments that include porcelain veneers, one of the most versatile treatments in cosmetic dentistry. She may also recommend teeth whitening and other cosmetic procedures that can restore or rejuvenate virtually any smile.

Dr. Bijan Afar, renowned [El Monte dental implants](#) dentist, offers periodontal care and dental implants. Dental implants are close in design to natural teeth and offer patients numerous benefits over traditional tooth replacement methods. Tooth loss and gum disease become more common with age, and if not treated, can lead to widespread dental and overall health problems. Restoring teeth with dental implants is safe and effective, and the implants can continue providing full, healthy smile for many years to come.

About Dr. Afar

Dr. Bijan Afar graduated from UCLA, from which he earned a degree in oral biology and his DDS. He was awarded the Hortense Fishbaugh Fellowship, the California State Fellowship and the Dentist-Scientist Fellowship from the NIH. He continued his education in the fields of periodontology and oral implantology and received his advanced degree. He is a recognized expert in his field, a Fellow of the International Congress of Oral Implantologists, a member of the American Dental Association and a member of the California Dental Association.

About Dr. Sedghi, [Cosmetic Dentist El Monte](#)

Dr. Asal Sedghi is a skilled [El Monte porcelain veneers](#) dentist. She graduated with honors from UCLA from which she earned a degree in physiological sciences. She earned her DDS from USC's School of dentistry. She has continued her education and completed several post graduate courses in dentistry so that she can maintain the highest possible quality and incorporate the most advanced treatments and procedures into her care.
