The broadcast will be on Thursday, October 10, 2013 at 5:00 pm Pacific, 7:00 pm Central and 8:00 pm Eastern time.

This global gathering is designed to impart to listeners three key secrets of spiritual faith which Neale Donald Walsch has found to be 'game changers' in helping to renew purpose, promote richer interpersonal relationships, and open inner channels for the Divine guidance we each have innate access to.

Walsch's teachings and his popular Conversations with God book series have already been translated into 34 languages--the books alone selling nearly ten million copies--while at the same time touching the lives of readers and inspiring their interactions with others.

From the steps of Machu Picchu in Peru to the steps of the Shinto shrines of Japan, and from Red Square in Moscow to St. Peter's Square in Vatican City to Tiananmen Square in China--Neale Donald Walsch has found a hunger among people for a new way to live, in peace and in more perfect harmony.

To address that spiritual hunger Walsch strives to bring people everywhere a richer understanding of both life and the God who created it.
