

The Gem Shop Diamond Source, LLC Announces Launch Of New Web Site

Written by Australian Business

ROCKTON, IL, October 07, 2013 /**24-7PressRelease**/ -- Award Winning Ethics, Award Winning Design

On October 5th, The Gem Shop & Diamond Source, LLC (<http://www.gemshoponline.com>) officially launched its completely re-designed web site.

The driving motivation behind this change was to bring the site up to speed with trends in social media and technology, focusing on mobile and tablet-friendly formats, as well as offering a more robust level of interactivity and information.

Owner, Mr. Kevin Mueller, and Senior Sales Associate, Mrs. Jessica Chavers, were both instrumental in developing the structure and bringing the final design to life, in an effort to better showcase their award-winning designs, as well as their high ethical standards - and awards for such.

Originally opened in 1967, The Gem Shop & Diamond Source, LLC has been providing a progressively more robust variety of high-end jewelry services to the Illinois-Wisconsin Stateline area.

Serving the state line for nearly 30 years, we were one of the first to offer custom made jewelry and are expert in its design and execution. We take the time to listen and will show you our progress, incorporating your input and individual sense of style, thus making our artistic creations truly interactive. We encourage you to ask your friends about us. Our reputation is our most valued and cherished asset. We are well known as a highly skilled yet surprisingly affordable jeweler.
