

Customers Affirm That PatientKeeper EMR Overlay is a Viable Long-Term Solution

Written by Australian Business

OREM, UT, October 08, 2013 **/24-7PressRelease/** -- Providers using PatientKeeper CPOE have unanimously declared that they see the EMR overlay as a long-term solution for their facilities. This finding comes from a newly released KLAS report entitled

[PatientKeeper 2013: A New Take on Inpatient CPOE](#)

. As part of the report KLAS interviewed six different health care facilities across the nation to capture their experiences with the technology.

"Many customers originally looked at PatientKeeper CPOE as a stopgap measure only," said Mark Allphin, report author. "Interestingly though, every PatientKeeper CPOE customer we spoke with determined that even if they changed EMRs, they would still likely stay with PatientKeeper. The key is the system's time to proficiency and overall ease of use for physicians."

The report showcases the performance of PatientKeeper CPOE across multiple criteria including usability and overall performance.

. The report is available to healthcare providers and vendors. Providers receive a significant discount off the standard retail price or can receive a complimentary summary report in exchange for a survey about one of their current vendors.

About KLAS KLAS is a research firm on a global mission to improve healthcare delivery by enabling providers to be heard and counted. Working with thousands of healthcare professionals and clinicians, KLAS gathers data on software, services, medical equipment and infrastructure systems to deliver timely reports, trends and statistical overviews. The research directly represents the provider voice and acts as a catalyst for improving vendor performance. Follow KLAS on Twitter at www.twitter.com/KLASresearch .
