

HOUSTON, TX, October 09, 2013 **/24-7PressRelease/** -- Industrial Solutions & Innovation, LLC (ISI) announced today that it will attend and exhibit at the FabTech 2013 tradeshow in Chicago. FabTech 2013 will be the largest industrial pipe and tube fabricating event in North America with over 35,000 people in attendance and over 1,500 companies exhibiting.

"We attend the most important tradeshow and we will be at FabTech 2013," said Darrell Whittenburg, President of Industrial Solutions and Innovation. "We will be doing live demonstrations with the EWM Hotwire TIG Welding System and the Copier 16S Bench Beveling System. Come by to see some of the world's best equipment and let's discuss your fabricating needs."

Industrial Solutions represents several manufacturers including AMET, Arc Machines, EWM TIG welding, AXXAIR, Copier Beveling and Watts Cutting Equipment.
