

BOULDER, CO, October 09, 2013 **/24-7PressRelease/** -- Neverfail, the Austin, Texas based business continuity software company, recently won the "Best of VMworld 2013" Gold Award for New Technology at the VMworld awards ceremony in San Francisco. The firm was awarded this honor for its IT Continuity Architect product, which is a newly-developed IT operations management solution designed to bridge the gap between a company's business services and its IT infrastructure.

The founders of Kapta Systems, a firm that provides company executives with world class strategic planning software and [dashboarding software](#) , partners with Neverfail ,and congratulated their team on winning the prestigious VMworld award. Neverfail's IT Continuity Architect product was chosen out of over 160 entries by a team of independent judges from the IT world.

The Neverfail entry was judged on innovation, performance, functionality, value, ease of use and manageability,ease of integration into an environment, and ability to fill a market gap. Neverfail CEO, Martin Mackay told VMworld ceremony attendees, "This recognition is a strong validation of what our customers have told us. It's an absolute honor to win the Best of VMworld Gold Award for New Technology this year."
