

CHANDLER, AZ, October 10, 2013 /**24-7PressRelease**/ -- Dr. Alan Discont understands the importance of knowledgeable patients. By understanding important foot and ankle health care information, patients can further improve the health of their lower extremities. Dr. Discont enhances patient education through the practice's online education resources. Patient education has become a top priority for this podiatrist in Chandler at Family Foot & Ankle Care. Using the practice's comprehensive website to relay valuable information, patients can now visit the practice's site to browse the vast educational patient library and as well as Dr. Discont's informative blog.

Patients can browse the patient education library for a wide array of information including bunions and heel pain in Chandler, among other various treatments and common foot topics. In addition, patients can access Dr. Discont's information rich blog, which allows patients to read up on current office news and common foot topics, as well as to provide comments and offer feedback for Dr. Alan Discont and his staff at Family Foot & Ankle Center.

"I want my patients to be well-informed about podiatric problems and treatments provided at my practice because well-informed patients make better decisions in regards to their health and well-being. Our extensive library contains a fully array of topics associated with podiatric diagnoses and treatments," said Dr. Alan Discont, a Chandler podiatrist.

As the founder and director of Family Foot & Ankle Care Center, Dr. Alan Discont has helped numerous patients get back to their healthy, active lifestyles by treating their foot and ankle problems. The practice offers a wide range of podiatric care, including treatment for patients in Chandler with bunions, heel pain, toenail fungus, and an array of other conditions of the foot and ankle.

Dr. Alan Discont and his qualified staff strive to stay abreast of the latest podiatric technologies and communication trends in order to deliver the most advanced foot and ankle care both in and out of the office. The practice's new educational library has introduced a new avenue in which patients can retrieve information about their podiatric health at any point during their day, even when the office is closed.

For further information about various foot conditions, such as heel pain in Chandler, contact Dr. Alan Discont at (480) 732-0033 or visit Family Foot & Ankle Care Center at <http://www.discontdpm.com/>
