

Admiral Movers Expands Warehouse and Adds Automated Tracking System

Written by Australian Business

MONTGOMERY, AL, October 12, 2013 **/24-7PressRelease/** -- The Admiral Companies today announced the expansion of their warehouse facility and the implementation of a state-of-the-art tracking system to enhance their storage capabilities and logistics.

Comprised of Admiral Movers and Admiral Records Management, the most trusted names in commercial moving and records management services in Montgomery, Alabama, the Admiral Companies specialize in providing local businesses with total move management solutions for all of their physical and digital assets.

The addition of 18,000 square feet to Admiral Movers' storage, warehouse, distribution, and logistics facility increases the Montgomery office mover's space to 50,000 square feet, and improves its ability to deliver award-winning moving services to the city's businesses. The secure facility employs controlled access security protocols and is monitored by experienced warehousemen.

Approved by the DOD for government use, Admiral Movers' warehouse is equipped with advanced storage devices to protect furniture, electronics, computers, machinery, inventories, and other business assets. Companies in a broad range of industries in the Montgomery area count on the experience and expertise of Admiral Movers for every aspect of asset management, including receiving, sorting, secure storage, and delivery. From using sealed storage containers that safeguard goods to clean upholstery racks that protect furniture, Admiral Movers ensures superior service that meets the needs of businesses on time, every time.

In partnership with UniGroup, a global logistics leader, Admiral Movers also recently implemented a cutting-edge tracking system called FastTrack to simplify the inventory process. The automated inventory management system makes it easy for businesses to view and obtain the status of inventory in every stage of the process with Internet access and email updates. As a digital, web-based, RFID tracking system, FastTrack provides a comprehensive logistics solution that streamlines project management, receiving, warehousing, distribution, and delivery to quickly and conveniently track inventories throughout the warehouse.

"We're excited to increase the size of our warehouse space and continue to provide our customers with the best Montgomery office moving and storage services," said Scott McNelley, president of Admiral Movers and Admiral Records Management. "Now, with FastTrack, customers always know where every piece of inventory is located, and they can quickly access details, descriptions, and images online. Tracking is completely automated and kept up-to-date, which helps us speed up the process and ensure our customers have a great experience every time they work with Admiral Movers. We look forward to continuing to grow with all of our valued
