

DENVER, CO, October 12, 2013 **/24-7PressRelease/** -- In 2000, Klee Associates, Inc. started publishing JD Edwards tips and techniques, and today the online library of content includes 8,000 pages of detailed JD Edwards documentation. In the past decade, JDEtips content has been downloaded 600,000 times by over 500 JDE client and consultant companies — assisting them with JDE solutions much like the ones featured in the premiere edition of the new publication.

Andy Klee, President of Klee Associates, Inc, and Publisher of the new JDEtips Knowledge Express, explains his personal passion for the online publication which he began over a decade ago:

"Many of you are already aware that we focus on providing JD Edwards training in a rich variety of formats—public and onsite, on-premise and virtual—for project teams, end users, and Super Users. But there is nothing more important to me than producing this publication—it is how we started, and it is the lifeblood of my career in ERP."

Mr. Klee continues, "The new Knowledge Express publication represents both our corporate and my personal commitment to providing a steady stream of useful JDE solutions—covering all the core applications and technology, combining step-by-step instructions with the complete 'backstory'—the why and not just the how."

JDEtips Practice Director, Penny Allen states, "Many consultants and clients have told me they always go to JDEtips first in search of an answer before trying any other resource. So it's with great pride and excitement that we have renewed our focus and energy on the JDEtips Knowledge Express."
