

Joe Taylor Comes to Las Vegas in November

Written by Australian Business

LAS VEGAS, NV, November 08, 2013 **/24-7PressRelease/** -- Performing music from his latest CD release titled "Anything's Possible," Joe Taylor will share three performances at the Blue Martini and Tommy Bahamas in Las Vegas on November 19th, 20th and 21st, 2013.

Taylor earned national recognition during a New York Times video feature, donning him the "Subway Idol" in 2008. The feature newsreels followed Joe as a local artist on a quest to earn a public performance permit from the City of New York and went viral on YouTube. Taylor followed the instant fame by providing a CD release that showed exactly why the New York Times would feature his artistry. The 12-song release hit the charts at Number One in Canada, a feat unseen by an unsigned artist since Nickelback achieved the same fame. The single "Sweetest Tune" became a prime time drama sensation as it was included in the daytime soap "Days of Our Lives" and earned Taylor more national notoriety as he embarked on a coast to coast club tour that saw an incredibly positive response.

In 2013, Taylor took the stage with fellow songwriting and performing artist Rick Springfield on Long Island performing for his local fan base and booked a residency at the Hard Rock Cafe in Connecticut with a highlight show on Halloween Night. Immediately following, Taylor has booked a series of dates stretching from New York to Los Angeles with three nights in Las Vegas.

On November 19th, the Blue Martini hosts a Monday Night Acoustic Show with Joe Taylor. Entrance recommended by 5:00 for a show time from 5:30 to 8:00 pm. The Blue Martini has one of Las Vegas' finest outdoor patios, and both a cocktail and VIP lounge.

On Tuesday the 20th and Wednesday the 21st, music lovers can enjoy a laid back upscale atmosphere with Joe Taylor performing from 5:00 to 9:00 PM on both nights. The restaurant at Tommy Bahamas offers a 4-7 happy hour and allows reservations by telephone or on the venue's website.

Taylor will bring his original songs to the stage while blending in a mix of today's radio favorites that fans have come to love and expect from his shows. On site, attendees can purchase Taylor's CD "Anything's Possible" and will have a chance to meet and talk with Joe after the performance. To hear music from the CD now, visit <http://www.joetaylorofficial.com>. Upcoming show dates and news information are also available.
