

Visage Clinic Voted Top Toronto Cosmetic and Plastic Surgery Clinic for 2014

Written by Australian Business

TORONTO, ON, May 11, 2014 **/24-7PressRelease/** -- After an extensive public survey process, Top Choice has honored plastic surgeon Dr. Marc DuPere and Visage Clinic (www.visageclinic.com) with its annual award recognizing excellence in business, singling out Visage in Toronto in 2 categories: top cosmetic clinic and top plastic surgery clinic.

"It's especially gratifying that Visage has received this award for the second year," Dr. DuPere says. "We strive to provide our patients with consistent personal care, and this honor recognizes our consistency and commitment to maintaining our high standards year after year."

Visage Clinic was chosen for the plastic surgery award last year, also, and this year added the cosmetic clinic award. Dr. DuPere credits his practice's growing selection of popular non-surgical treatments such as BOTOX , Dysport , dermal fillers, lasers and medical-grade skin care for the cosmetic clinic honor.

Top Choice is an awards program that lets residents nominate and vote for businesses that provide excellent service in a range of fields, including medical specialties.

"I am passionate about getting the best aesthetic results possible for my patients, whose trust in me is the cornerstone of the doctor-patient relationship," Dr. DuPere says. "There are many plastic surgeons in Toronto to choose from. The fact that women and men choose Visage Clinic is a testament to the personal care and professionalism displayed by everyone at our practice."

Dr. DuPere trained internationally after completing his fellowship of the Royal College of Physicians and Surgeons of Canada in plastic surgery at the University of Toronto. He has studied in Paris and Los Angeles, where he also cultivated a personal interest in photography and art. He says the aesthetic principles of fine art complement his work as a plastic surgeon at Visage, which is located in Toronto's fashion district near the Art Gallery of Ontario, the OCAD, the Opera House, and the COC - Four Seasons Centre for the Performing Arts.

A range of procedures are available at Visage Clinic, which also has an office in Richmond Hill. One of the clinic's special body contouring techniques is abdominal etching, which helps define the midsection. Mini and [traditional tummy tuck procedures](#) , along with the [Brazilian butt lift](#) , are also popular with Toronto patients.

Visage Clinic Voted Top Toronto Cosmetic and Plastic Surgery Clinic for 2014

Dr. DuPere is highly regarded for his skill in cosmetic breast surgery, which includes not only female breast augmentation, but also chest contouring for men who elect gynecomastia surgery in Toronto. He also offers a wide range of facial procedures, including face, forehead and neck lift, eyelid surgery, ear surgery, brow lift, and rhinoplasty. Visage is also noted for its non-surgical facial enhancement procedures such as BOTOX, Dysport, cosmetic injections, dermal fillers, laser treatments, and the highly acclaimed skin care line by Dr. Zein Obagi, ZO Skin Health. Dr. DuPere is one of the few North American plastic surgeons performing calf, buttock, abdominal, chin and pectoral implantations. He believes this variety is another reason people have voted his clinic among the top.

Dr. Marc DuPere (www.visageclinic.com) offers a full range of cosmetic plastic surgery and minimally invasive procedures. He is committed to helping women and men improve their appearances and enhance their quality of life. He completed his medical training at McGill University, Montreal, and then after completing a fellowship of the Royal College of Physicians and Surgeons of Canada in plastic surgery at the University of Toronto, he pursued further training in Paris, France, and Los Angeles.
